Subject: RE: otsego township dam meeting.

Okay – change of plans again. We are no longer planning to meet this month in Plainwell, we are proposing a group call instead:

Hill is working on field sampling plan, etc. If all goes as planned, we expect the field work to commence in December.

We have decided that it would be more productive to meet as a group after Hill has incorporated the field data into the design. We would, however, still like to schedule a call within the next few weeks to regroup and discuss preliminary assessment, potential structure location and proposed strategy/timeline for field work and design. We will also be inviting GP to participate in this call and in subsequent meetings. Ideally, the timing of the group call will occur after Hill has completed its review of the existing data.

Tim Watkins will be getting back to me with an updated timeline in the next few days, which will dictate when we schedule the call. I will get back to everyone by the end of the week.

Thanks for your patience!

Subject: otsego township dam meeting.

We had tentatively scheduled a meeting next week for CH2MHill to present preliminary dam design proposals. Due to the shutdown, we need to reschedule. Please let me know your availability for am meetings on November 7th, 14th and 21st. Preferred date is November 7th.
Thanks.
